Water Availability

- Schools participating in the National School Lunch Program (NSLP) and Afterschool Care Snack Program (ASCSP) must make potable water available to children at no charge in the place where lunch meals are served during the meal service.
- When breakfast is served in the cafeteria, schools must make potable water available and accessible without restriction to children at no charge.
- The location of the potable water must be in the foodservice area or immediately adjacent to the meal service area.

Water Availability

- Examples of ways to make water available:
 - Pitchers and cups on the tables
 - Water fountain
 - Faucet/fountain where students can fill their own bottles or cups
- Consider the drinkability of the water and ensure it is palatable for students.
- Consider the amount of time it takes for students to access the water. They shouldn't have to wait in long lines for water.
- Visit the webpage for more information.
